

SPECIALTY LANYARDS

4 in 1 Lanyard ↘

The 4 in 1 Lanyard is designed to give the user greater flexibility and safety. The versatile system gives the worker a number of options so that they have the right tool to get the job done safely. Many accidents occur when the user is left no choice but to improvise as they would rather get the job done than climb back down to get additional equipment.

- Complete versatility on the job-site
- Allows for connection of retractable without attaching two snap hooks to a single D-ring which is a safety violation & against OSHA's regulations
- One leg allows for tie-off at the feet; another leg allows to tie back into the lanyard using a 5K triple lock carabiner
- "Y" configuration gives you ability to tie-off 100% of the time
- D-ring extender
- Adjustment for greater flexibility
- 12K webbing for added strength

21210

6' Double Leg Heavy Duty Lanyard ↘

- 18" Extension with D-ring
- Snap Hook at top
- High Strength Rebar Hooks on legs

Extension Lanyards ↘

Extension Lanyards are attached to the harness before use to lower the lanyard attachment point to waist level. Ideal for workers who cannot comfortably reach the dorsal D-ring on their harness.
